Description: ARB Push-on Air Chuck

Application: ARB Compressor accessory

Part No: ARB606

Designed for applications where a long reach chuck is required such as Bead locks, split rims and dual truck rims, this push on air chuck can be fitted to ARB compressor lines with the US standard fitting, or the fitting can be removed and retrofitted with any air fitting using 1/4 NPT thread

Features:

- Compatible with ARB Air Compressors
- Easy-grip rubber sleeve handle
- 1/4 NPT US standard male air fitting
- Internal air shut off valve
- Dual chuck for valve access on split rims
- Nickel plated for corrosion protection
- Supplied in full colour blister pack ideal for showroom display

Availability Date: Due Mid October
